

T R Fabrications Ltd

Environmental Policy Statement

T R Fabrications Ltd recognises that day to day operations can impact both directly and indirectly on the environment. We aim to protect and improve the environment through good management and by adopting best practice, wherever possible, to minimise the impact of our activities on the environment.

T R Fabrications Ltd will, as far as is reasonably practicable:

1. Comply fully with or exceed all relevant legal requirements, codes of practice and regulations.
2. Prevent pollution to land, air and water.
3. Reduce water and energy use.
4. Minimise waste and increase recycling within the framework of our waste management procedures.
5. Identify and manage environmental risks and hazards.
6. Involve customers, partners, clients, suppliers and sub-contractors in the implementation of our objectives.
7. Promote environmentally responsible purchasing.
8. Provide suitable training to enable employees to deal with their specific areas of environmental control.
9. Improve the environmental efficiency of our transport and travel and minimise toxic emissions through the selection and use of its vehicles and the source of power requirements.
10. Establish targets to evaluate the continuous improvement in our environmental performance.
11. Use an accredited program to offset the greenhouse gas emissions generated by our activities.

All employees are responsible for working towards the objectives contained within this policy.
